

Pre & Post Construction Cleaning

Cleanstar National has a construction cleaning crew that understands that after all the hard work that went into the construction of your new facility; a good detail cleaning is needed to get it ready to be occupied and open for business.

Whether you are a general contractor in need of an experienced company to clean up a major construction site or a property manager requiring detail cleaning for a new tenant – We can meet those needs. **Cleanstar National** employs only fully insured, highly trained and reliable personnel who truly take pride in their work and care about the appearance of your facility.

Our construction cleaning crew has the resources, experience and flexibility they need to complete your project on time. We utilize the latest technology and techniques to achieve superior results quickly, effectively and unobtrusively. At **Cleanstar National**, we undertake your pre- or post-construction cleaning projects as we do every other cleaning project, with the client at the forefront of our mind.

Green Building Service

Cleanstar National is proud to use environmentally friendly and green cleaning products and methods. We recognize the importance of creating a healthier environment both inside and outside of your facility.

We use only Green Seal Certified products and we offer you the most innovative green cleaning technologies.

Our janitorial and commercial cleaning staff is well trained in meeting health code requirements and respecting confidentiality for a wide variety of work environments, including:

- Healthcare facilities
- Retail establishments
- Industrial settings
- Restaurants
- Banks
- Schools
- Corporate offices
- Office buildings of any size
